

Recommended Use: As a dietary supplement, mix one scoop (30 grams) in eight ounces of water or any other beverage, or as directed by your health care practitioner. PaleoMeal may be blended into a shake if desired.

PaleoMeal™: Highest Quality Ingredients and Formulation

PaleoMeal is designed to help promote an optimal intake of protein, fats, carbohydrates, vitamins and minerals needed for overall wellness. PaleoMeal is made with an exceptional quality whey protein concentrate, which comes from herds that graze on disease-free, pesticide-free, chemical-free, natural grass pastures. These milking cows are not subject to any chemical, genetic or hyper-immunization influence. They are never given bovine growth hormone or any other hormones. No rBGH or rBST. They have no history of bovine disease and have never been fed any cannibalistic by-products. This whey protein concentrate is produced to maintain the fragile components naturally present in whole fresh milk including the immunoglobulins, lactoferrin and bovine serum albumin. The result is the highest quality protein formulation available.

Uniquely formulated and distributed by:
Designs for Health, Inc.

FEATURES

- 2.1 g Immunoglobulins
- 454 mg Lactoferrin
- Low Heat Processed
- High in Glutathione Precursors

PROPRIETARY NON-DENATURED WHEY PROTEIN

**PaleoMeal™
 Packets**

Natural Strawberry Flavor

15 Packets (30 grams each)

PaleoMeal was not intended to be the sole source of calories, but as part of an overall program of healthy eating.

Allergen Information: This product does not contain fish, shellfish, peanuts, tree nuts, eggs, wheat, gluten, artificial colors, flavors or preservatives.

Better than Soy

Whey protein is nature's richest source of biologically active protein. Unlike soy protein, which is low in the amino acid methionine, whey protein contains all the amino acids the body needs in the best balance yet discovered in any food.

Whey protein is derived from milk. Lactase enzyme was added to aid in the digestion of the small amount of lactose in this product. Those who are sensitive to milk products may be able to tolerate this whey protein, however, if you are allergic to milk and milk products, use PaleoMeal under the guidance of your health care practitioner.
